ABOUT ME

I'm currently in finance operations and I'm looking to transition into the tech industry, working in a role with Python.

I thrive in situations where I need to problem solve in a team environment. I'm excellent at handling complex data, learning from information and revealing insights. I have exemplary organisational skills and I'm passionate about finding creative ways to improve efficiency in my work.

Pitman Training

Mar 2013 - Mar 2014

Completed advanced training in Excel and other MS Office tools, Business Communication, SAGE 50 and more.

A-Levels

Bethany School

Sep 2009 - Jul 2011

- Physics
- Media Studies
- Photography
- Drama

EXPERIENCE

Finance Assistant
Mar 2023 - Present

Weald of Kent Grammar School (Temping via Office Angels)

- This role has evolved from just processing invoices to supporting the Finance Department in a variety of ways, including trips administration, creating and reviewing BACS runs, procurement, software support and **training new staff**.
- As a temporary role in a small team, it was important for me to **build rapport** and **learn quickly** in a fast paced, high pressure work environment.
- In order to **optimise technical processes**, I have advocated for the adoption of more **user-friendly software** and trained staff on better computing skills to work more efficiently.

PA to Finance Director
Mar 2019 - Feb 2023

Joint Ventures in Property (JVIP) / Zico Group Ltd

- I **created and maintained a connected database** of properties, mortgages and assets, investor deals, investment payments and security information. This had an interface which, once a unique ID was entered, would **pull data from the various databases** into a single report automatically.
- I was instrumental in **setting up a CRM** for the company. I collaborated with a consultant to establish the company's **requirements for improved processes** across marketing, sales, client relations and reporting.
- In addition, my responsibilities included liaising with lenders and mortgage brokers to assist with underwriting, reporting for the CEO and CFO, property development costings and **generating quarterly reports**.

Operations Assistant
Mar 2018 - Jan 2019

London Capital & Finance (LCF)

- Daily fund sheet which imported data from a number of **CSVs** to generate reports with **Excel** to inform the CEO of the company's daily lending capacity.
- Responsible for dealing with probate when investors passed away.
- Performing daily reconciliation using **VLOOKUPs** to **maintain the integrity** of the databases.
- **Reviewing colleagues' work** to minimise errors.
- Adhering to daily **strict deadlines**.

Short Course and Assessment Administrator
Apr 2016 - Mar 2018

Hadlow College / West Kent College

Retail Assistant
May 2015 - Apr 2016

The Protein Pick & Mix

Retail Assistant / Shop Supervisor
Mar 2012 - Sep 2015

Chartwell, National Trust

Waitress / Bar Staff
Nov 2011 - Sep 2015

The Swan on the Green
